Dear alice1101983,

If you have copy version of moto monster. Those don't have spark fun text. I like to have one of those. But if you have only clone I prefer get my money back.

Dear alice1101983,

Dear alice1101983,

As you can see in the picture theres a gap under the chip where it can't be. So should this satisfied you or do i have to do something else?

And if i try to fix that then i have to order reballing station and it cost atleast 15€.

Dear alice1101983,

Hi!

I try earlier to send message to you. Have you received it? If not then here is the video

https://www.dropbox.com/s/0or07ea1fo449o0/MVI_7804.MOV?dl=0

I measure those outputs and it gives 12v a1 - b1 and when i change the rotation it gives 5,6v

Dear deekupelle1978,

dear friend,

i am sorry to hear that.

did you have any operate error?

i have some info,

<https://www.sparkfun.com/products/10182>
i hope it can solve the problem for you .

if it still can't work, could you send me picture of the item (when you using it) and package label in the e-bay station to me ?

I hope we can solve this problem in good communication.

thank you.

best regards.

Roxanne.

Dear alice1101983,

My motomonster shield not working correct. It drive 1 motor ok in clockwise but another way it's move about one round and stop after that. i change the motor positive and negative wire and it work's counter clockwise ok so the motor is ok. The other shield what i bought some time ago work's ok so this has some problems.
